Update Re: Bulldozer death

At about 10am, St. Petersburg police was called to investigate a death at a construction site.

It happened on land under construction for a future apartment complex at 10980 Oak Street N.E. A bulldozer backed-up and struck and killed worker Justin H. Smith, DOB 8-25-88, (age 27, not 25 as previously released) 20633 Evergreen Court, Dade City, FL, Apt.#22. Smith died immediately on the scene. There were approximately 20 workers on the site at the time, including his brother.

Smith was an employee of API Services. The driver was employed by Central Site Development.

The driver, Albert Kimball, DOB 2-16-78, was not injured. However, he was not feeling well and was taken to Tampa General Hospital for precautionary reasons.

No charges will be filed. OSHA was called and will perform its own investigation.
