Hurricane Matthew Update for St. Pete

Matthew is expected to bring high winds with gusts 40-55mph and 1” of rain. The storm will be closest to us Friday 6am-10am but we will feel the effects most of Friday.

Here's what to keep in mind:
- bring in outside patio/pool furniture
- bring in hanging/potted plants
- stay clear of downed power lines
- try to limit travel as we are expecting traffic from East coast evacuees

While this is not expected to bring heavy rainfall, remember to avoid deep water on roadways.

We will continue to provide updates as necessary.
