### Skimmer Found at Gas Station

For Immediate Release:  
June 22, 2017

Shortly before 9 a.m., a customer at the Shell Station, 3801 66th Street North, told the gas station attendant his rewards card wouldn't work at the pump.

The gas station attendant checked and discovered the security tape had been tampered with and a skimming device had been placed inside the pump.  
Photo is attached.

Investigators believe it was placed sometime between Wednesday at 3 p.m. and 8:49 a.m. today.

Customers who may have used the pumps at that Shell station during that time period may want to check their credit card/bank accounts.
