

ST. PETERSBURG POLICE DEPARTMENT

PRESS RELEASE

COMMUNITY AWARENESS DIVISION

YOLANDA FERNANDEZ, MANAGER
727-893-7550

DANGER ALERT

For Immediate Release:
September 13, 2017

DANGER ALERT! PLEASE HELP US GET THE WORD OUT

We have become aware that people are lining up to buy dryer (pigtailed) electric cords to plug their generators into their main electric panels in hopes of powering their entire homes.

THIS CAN ENERGIZE THE LINES BACK TO THE MAIN TRANSFORMERS AND DOWNED LINES AND ELECTROCUTE THE POWER WORKERS!!

Also, if power workers test the lines before working on them, it will destroy the home generator.
